

Revival Beds Assembly Guide

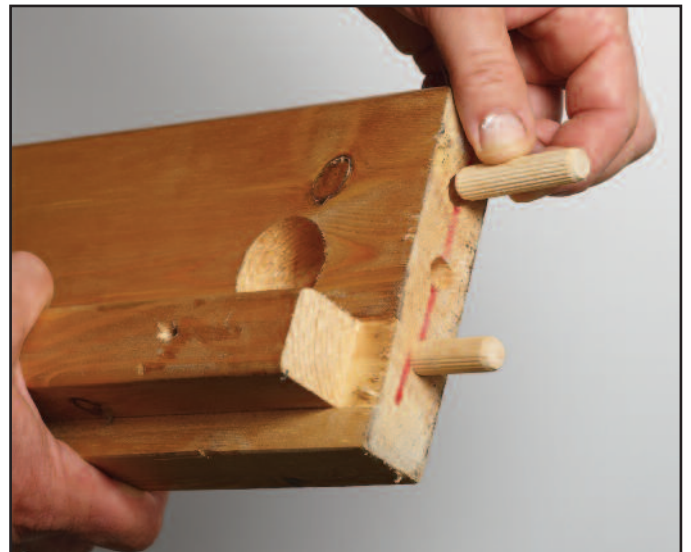

Bed Assembly Fixing Pack

Revival Beds are easy to build and only takes about half an hour to 45 minutes to assemble.

To start assembling your bed ensure you have sufficient space and all of the tools required. In your pack of fixings you will have 4 x threaded bars: 4 x nut: 4 x half moon washer: 8 x dowel: 1 x spanner: 4 x screw.

1. Begin by taking the wooden dowels insert them into the top and bottom holes of the Side Rails.

2. Screw the threaded bar into the centre hole of the Bed Post.

3. Gently align the Bed Post and threaded bar into the centre hole of the Side Rail, aligning the wooden dowels.
4. Place the Half-Moon washer and nut into the large hole towards the end of the siderail and loosely tighten.

5. Check the bed is set square and then fully tighten the nut
6. Repeat for the other side rail. Check the bed is square and fully tighten all the bolts

7. Lay out the slats on the bearer bars

8. Screw down each corner and one in the middle.

9. If your bed has a centre support bar run this along the centre of the bed length-ways under the slats. Fix with the screws provided.

You Revival Bed
is now assembled!
